Key Highlights

Our Strategy

How we stay ahead of the competition

Diversification

Oxley is always on the lookout for development opportunities. In the span of 8 years, Oxley has expanded to 11 different countries.

Oxley has been building up its investment and hospitality portfolio. We have been seeking to increase recurring rental income streams to augment our property development business.

Strategic Alliances and Acquisitions

Oxley has embarked on strategic and lasting partnerships with overseas developers to tap on their institutional knowledge and expertise. These partnerships have enabled us to break into different markets.

Oxley has acquired stakes in reputable companies such as Galliard Group from the United Kingdom, Pindan Group from Australia, United Engineers and Aspen Group from Singapore. This would allow us to better manage our expansion and development risks, whilst leveraging on partners' local experiences and best practices to gain access to new markets and solidify Oxley's operating presence

Capital Efficient Model

An asset light acquisition model is used in our overseas markets. In some countries, Oxley has structured capital efficient deals with authorities or local landowners. In appropriate situations, this allows the Group to commit lower amounts of capital while enjoying strong cash flows when the Group launches and sells the properties.

Our strategic partnerships with local developers help us to manage the costs and risks involved.

We have diversified our funding sources and optimised our cost of capital by monitoring the markets for favourable opportunities to build up capital resources.

Product Differentiation

We collaborate with renowned architects and designers to create architecturally inspiring and unique projects with attractive yet practical floor plans and designs.

We intend to continue leveraging on our brand name and experience in developing premium properties.
